Sheffield Orthopaedic News

July 2008

### **SOL welcomes two new consultant surgeons**

SOL is pleased to welcome [Alex Anderson](#) and [Amjid Ali](#) to the team. Alex is a specialist knee consultant who trained in Sheffield but now works at Rotherham General. Amjid is a specialist shoulder and elbow consultant whose NHS base is the Northern General Hospital. This brings the total number of SOL consultant surgeons to 17.

Both Alex and Amjid provide SOL outpatient clinics at Clarendon and Thornbury Hospitals [\[more...\]](#).

### **SOL September seminar: "Why do hips fail?" by Mr Simon Buckley**

SOL Seminars are provided free of charge, are recognisable for CME learning and can form part of the GP's PDP. There is no seminar in August, but we are already taking reservations for our September seminar "Why do hips fail?" by Mr Simon Buckley.

To make booking your place easier, we have enhanced our website so that you can book seminar places online <http://www.sheffieldorthopaedics.com/seminars.asp>. You can also download copies of previous seminar presentations from the same page.

If you have any requests for seminar topics please email Julie with your suggestions [julie.grayson@sheffieldorthopaedics.com](mailto:julie.grayson@sheffieldorthopaedics.com).

### **SOL email diagnostic advisory service**

SOL provides an orthopaedic advisory service free of charge to GPs, physiotherapists and other orthopaedic professionals in Sheffield and the surrounding region.

Please email your enquiry to [advice@sheffieldorthopaedics.com](mailto:advice@sheffieldorthopaedics.com) in complete confidence, providing as much clinical detail as possible, and one of our sub-specialist surgeons will reply with expert advice.

We look forward to receiving your enquiries and to helping you provide a better service to your patients.

## Online Resource: Foot & ankle arthritis

There are 28 bones and over 30 joints in the foot. If arthritis develops in one or more of these joints, balance and walking may be affected. The foot joints most commonly affected by arthritis include [\[more...\]](#)

## About SOL

Sheffield Orthopaedics Limited (SOL) is the largest independent provider of orthopaedic healthcare in the Sheffield area and is one of the UK's largest surgeon-led healthcare companies. SOL's 17 sub-specialist orthopaedic consultants are all NHS-trained and provide outpatient and surgical services from both the Clarendon and Thornbury Hospitals in Sheffield.

SOL has specialist consultant surgeons in all areas of orthopaedic care including:

- Feet, ankles, hands & wrists
- Joint replacements
- Paediatrics
- Soft tissue of the knee and upper limb
- Spines
- Sports injuries
